Online Portfolio Assignment

Submission Date: 22/02/2021

A. Link of your Portfolio:

1. <https://wix.to/BUC9B54> (Please try this link and Zoom Out to 67% if necessary)
2. <https://zeelsathwara.wixsite.com/portfolio> (This is the main link but it might not work as the portfolio has not been published)

B. Answer following Questions:

1. What you have learned from this portfolio making Assignment?

Portfolio is important to showcase your work and skills on professional level and it helps the future employer to know that you are capable of the job/work you have been assigned to. While making this portfolio, I learnt that it's important to choose a layout not too fancy but subtle and professional and have to include all our first class works, designs or drafts which attract the one who's going to see the portfolio. Also I got to know more in depth about the website creation tool, WIX while making this portfolio.

2. What difficulty you have faced while making this website?

Honestly, the only difficulty I have faced while making the portfolio is at first I didn't know the contents and what should be included in the portfolio to make it look proper because it was my first time making a portfolio but with the references which were provided helped me to figure out.

3. How this Online portfolio will help you in the future?

Online portfolio will be helpful when we send out the resume. We can also attach the portfolio with it so it will give more impact. This helps us to stand out above the others. It's also instantly accessible anywhere, anytime in this technology savvy world.

4. Which website making tool you used for online portfolio designing? and Why?

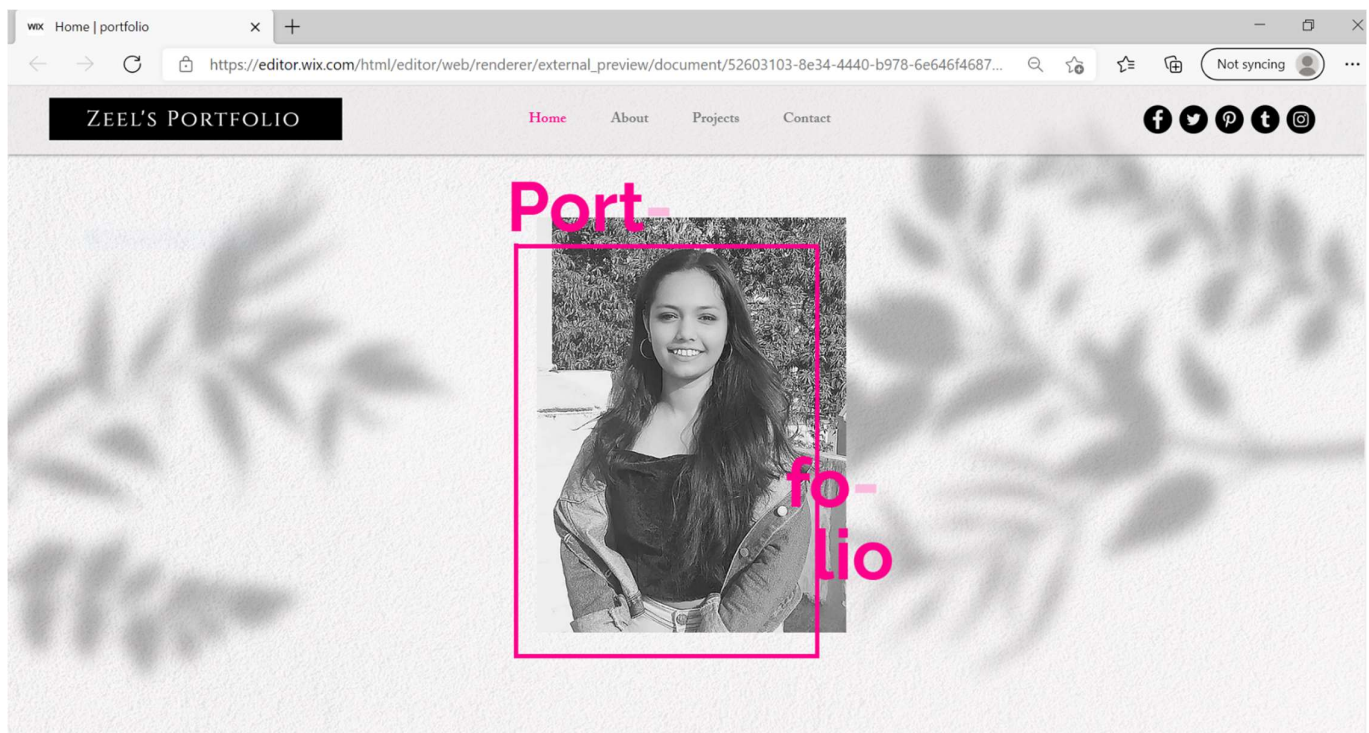

Personally, I used WIX website making tool for online portfolio designing because it was already known to me earlier and so it was easy to explore WIX tools. That made the whole process fast without wasting much time.

5. What is importance of learning UI/UX designing?

The primary goal of any business is to increase its sales and increase the growth of the business. UI/UX Design plays an essential role in achieving this goal. The UI/UX Design of the application improves the user experience and customer satisfaction that ultimately helps increase the number of users of the specific application. A good UI/UX design is great for any start-up or small business website as they need to attract users. The UI and UX Design help to win the consumers' confidence.

C. Attach all the Screenshots of your Online Portfolio (It should be properly visible).

- This is the 'Home' section of the portfolio, "ZEEL'S PORTFOLIO". It generally contains links to different sections of the portfolio which has been done with the use of anchors and it also contains social bar with links.

- This is the 'About' section of the portfolio which contains information about myself, skills, hobbies and education.

SOME OF THESE I GAINED OVER THE YEARS

About Me

A SIMPLE GIRL AIMING HIGH

My name is Zeel Sathwara. I'm a First-year University Student pursuing Bachelor of Technology Degree in Computer Science and Engineering. I'm a little shy but can express well when needed. I'm into drawing/sketching and designing stuff and have a weird fascination towards computers so that explains why I wanted to pursue a degree in Computer Science.

During my school years I have taken part in many competitions whether it may be drawing/sketching competition or a calligraphy competition. Now, as I'm in University, recently I am strengthening my skills in HTML and Website Builder software like Figma and WIX. When I'm not painting, sketching, building random websites or logos, you'll find me reading fiction/non-fiction books and of course completing assignments.

Education

Higher Secondary	University
2018 - 2020 Tejas Vidyalaya Science Stream Vadodara, Gujarat	2020 - 2021 Navrachana University B. Tech. in Computer Science and Engineering [CSE] Vadodara, Gujarat

- This is the 'Projects' section of the portfolio which includes all my works that is my projects, assignments and practicals which were assigned to me. Collage have been formed.

WINTER CLOTHING

As winters are here we need the warmest but yet stylish. We need to wear thick heavy clothes which keep us warm, so jackets, sweaters, are our preferable options to wear in winters.
